REQUEST FOR CORRECTION OF FILING RECEIPT

Mail Stop Issue Fee
Commissioner for Patents
P.O. Box 1450
Alexandria VA 22313-1450

Sir:

Applicants respectfully request that the Filing Receipt for the above application be corrected as shown on the enclosed copy thereof.

The changes requested fall into three groups. The correction in the Title is a simple correction of a clerical error, the need for which is obvious from the context.

The second group of changes are those on the first page of the Filing Receipt. These changes add a reference to Application Serial No. 08/935,800 being a continuation-in-part of PCT/US96/13469, filed August 20, 1996. This International Application was mentioned in the Application Data Sheet filed with this application, but was erroneously identified as a foreign application whose priority was claimed. The correct relationship is given on the front page of U.S. Patent No. 6,120,588, issued on Application Serial No. 08/935,800. The second correction on the first page simply clarifies that it is Application Serial No. 09/140,988 which claims benefit of the numerous listed provisional applications.

Albert et al.
Serial No. 09/896,546
Request for Correction of Filing Receipt
Page 2

The third group of changes comprise the insertion at the end of the "Domestic Priority Data" section of the Filing Receipt. This insertion adds references to two provisional applications the benefit of which is claimed by the aforementioned Application Serial No. 08/935,800. These two provisional applications were mentioned in the Application Data Sheet filed with this application, but in a manner which may have implied that their benefit was claimed directly either by the present application or by the aforementioned parent Application Serial No. 09/140,988, either of which is impossible in view of the filing dates of the provisional applications. The correct relationship between these two provisionals and Application Serial No. 08/935,800 is stated correctly on the front page of U.S. Patent No. 6,120,588, issued on Application Serial No. 08/935,800.

Respectfully submitted

David J. Cole

- Receipt is acknowledged of this regular Patent Application. It will be considered in its order and you will be notified as to the results of the examination. Be sure to provide the U.S. APPLICATION NUMBER, FILING DATE, NAME OF APPLICANT, and TITLE OF INVENTION when inquiring about this application. Fees transmitted by check or draft are subject to collection. Please verify the accuracy of the data presented on this receipt. If an error is noted on this Filing Receipt, please write to the Office of Initial Patent Examination's Filing Receipt Corrections, facsimile number 703-746-9195. Please provide a copy of this Filing Receipt with the changes noted thereon. If you received a "Notice to File Missing Parts" for this application, please submit any corrections to this Filing Receipt with your reply to the Notice. When the USPTO processes the reply to the Notice, the USPTO will generate another Filing Receipt incorporating the requested corrections (if appropriate).

Preliminary Class

345

LICENSE FOR FOREIGN FILING UNDER
Title 35, United States Code, Section 184
Title 37, Code of Federal Regulations, 5.11 & 5.15

GRANTED

The applicant has been granted a license under 35 U.S.C. 184, if the phrase "IF REQUIRED, FOREIGN FILING LICENSE GRANTED" followed by a date appears on this form. Such licenses are issued in all applications where the conditions for issuance of a license have been met, regardless of whether or not a license may be required as set forth in 37 CFR 5.15. The scope and limitations of this license are set forth in 37 CFR 5.15(a) unless an earlier license has been issued under 37 CFR 5.15(b). The license is subject to revocation upon written notification. The date indicated is the effective date of the license, unless an earlier license of similar scope has been granted under 37 CFR 5.13 or 5.14.

This license is to be retained by the licensee and may be used at any time on or after the effective date thereof unless it is revoked. This license is automatically transferred to any related applications(s) filed under 37 CFR 1.53(d). This license is not retroactive.

The grant of a license does not in any way lessen the responsibility of a licensee for the security of the subject matter as imposed by any Government contract or the provisions of existing laws relating to espionage and the national security or the export of technical data. Licensees should apprise themselves of current regulations especially with respect to certain countries, of other agencies, particularly the Office of Defense Trade Controls, Department of State (with respect to Arms, Munitions and Implements of War (22 CFR 121-128)); the Office of Export Administration, Department of Commerce (15 CFR 370.10 (j)); the Office of Foreign Assets Control, Department of Treasury (31 CFR Parts 500+) and the Department of Energy.

NOT GRANTED

No license under 35 U.S.C. 184 has been granted at this time, if the phrase "IF REQUIRED, FOREIGN FILING LICENSE GRANTED" DOES NOT appear on this form. Applicant may still petition for a license under 37 CFR 5.12, if a license is desired before the expiration of 6 months from the filing date of the application. If 6 months has lapsed from the filing date of this application and the licensee has not received any indication of a secrecy order under 35 U.S.C. 181, the licensee may foreign file the application pursuant to 37 CFR 5.15(b).
